Publishable summary

The aim of this deliverable *D6.3: Preliminary Exploitation Plan* is to present the implementation strategy of the exploitation of the iSTORMY project, during and after the project runtime.

This deliverable has two main sections: Section 1 focusing on reporting the current market situation and trends, together with a preliminary business model. Section 2 will present the actual preliminary Exploitation plan.

The Exploitation plan describes the preliminary road map including the identified project results, target audience, how that audience will be reached and when it will be reached.

The document is based on the input of all the technical partners in the Consortium. It shall explain the methodology behind the exploitation of project results as well as list exploitable results.

Acknowledgement

The author(s) would like to thank the partners in the project for their valuable comments on previous drafts and for performing the review.
